

What is their choice? It is **SPG**

All of the four major electric home appliance manufacturers ; GE, Whirlpool, Electrolux, have chosen SPG Motor. SPG which produces the world best quality motors shall become the standard of the world motor.

Product descriptions

PLANETARY GEARHEADS

- Small-sized, Light, Compact
- High Precision, High Durability
- High Efficiency
- Easy Mounting with various Servo Motors

INDUSTRIAL MOTOR

- Compact Size, High Efficiency,
- High Reliability & Low Noise by Precise processing.

BLDC GEARED MOTOR

- Motors for factory automation and Miscellaneous automation installations
- High power, Excellent speed stability, Regular torque, low noise

SHADED POLE GEARED MOTOR

- Motors for home appliances, OA instruments, Ad equipment
- Produced mainly for export

STANDARD GEARED MOTOR

- Industrial appliances, home appliances, OA instruments, and medical equipments
- Offering a wide range of product lines in accordance with rotation direction, speed control, and stop function Motors

CAPACITOR RUN GEARED MOTOR

- Motors for copiers, automatic doors, and juicers
- High power and custom made orders

DC GEARED MOTOR

- Motors for vending machines, Coin exchanger, Printers, X-Ray and etc
- Product advantages include maneuverability, high power, and easy speed control.

BLDC MOTOR

- Motors for copiers, printers, home appliances (air conditioners and refrigerators), FA instruments and air cleaners

AC MOTOR

- Motors for air conditioners, microwave ovens, refrigerators, washers, dishwashers, freezers, and pumps

Pellet Heating System Motor

ICG-75 OPEN CASE TYPE
(page 09p)

ISG-3 TYPE(25~50T)
(page 15p~16p)

**ISG-3 TYPE
(HOLLOW SHAFT)**
(page 17p)

DC BRUSHLESS SERIES
(page 18p)

**STANDARD AC TYPE
(80 FRAME)**
(page 08p)

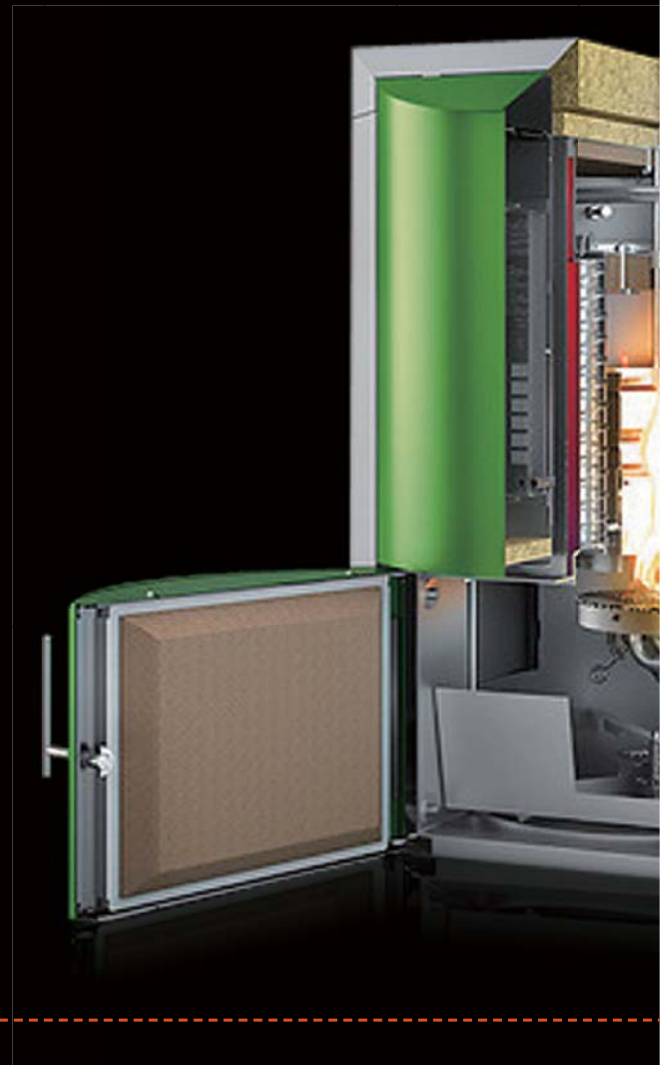

ICG-75 OPEN CASE TYPE
(page 09p)

ISG-3 TYPE(25~50T)
(page 15p~16p)

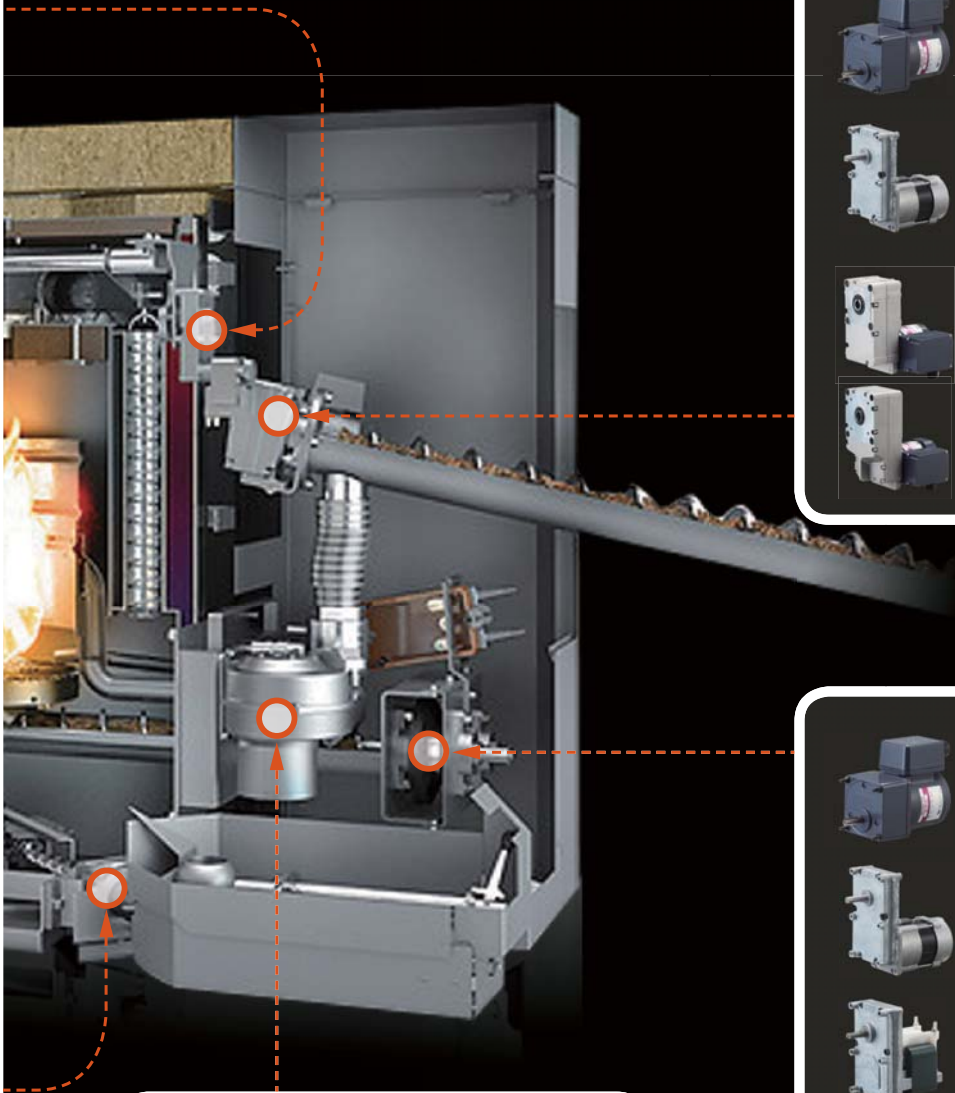

**ISG-3 TYPE
(HOLLOW SHAFT)**
(page 17p)

The world-class SPG motor completes the Pellet Heating System, allowing it to go one step further in delivering high performance to its finished products.

The world-class technology of the advanced SPG Company has been thoroughly researched and made into environmentally-friendly motor products.

The application of SPG Motors makes it possible to accomplish the environmentally-friendly Pellet Heating Systems.

**STANDARD AC TYPE
(80 FRAME)**
(page 08p)

ICG-75 OPEN CASE TYPE
(page 09p)

**FLAT GEARED
INDUCTION MOTOR
(FA/FB SERIES)**
(page 10p~14p)

**STANDARD AC TYPE
(80 FRAME)**
(page 08p)

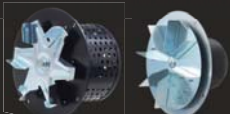

ICG-75 OPEN CASE TYPE
(page 09p)

ISG-3 TYPE(25~50T)
(page 15p~16p)

**ISG-3 TYPE
(HOLLOW SHAFT)**
(page 17p)

**AC RADIAL
FAN MOTOR**
(page 19p~25p)
